NOTE A.—The light dotted perpendicular lines, which divide the spaces intended for numbers on this Schedule, are intended to separate the units, tens, &c. from each other, and the Enumerator should be careful that the figures are written within the small spaces so formed, thus: 7 4 1, the units in the right-hand small spaces.

NOTE B.—Make a summary entry by a slanting line (thus /) in one of the three columns 2, 3, and 4, according as the fact is in the case of each farm, as follows:—
 Column 2, if the occupied landowner of the farm is also the owner; column 3, if the farm is rented; column 4, if the landowner conducts it voluntarily.
 NOTE C.—Enumerate and observe that there are 100 questions related to each farm, which are arranged in four successive divisions of each schedule page.
